

ERASMUS MUNDUS JOINT MASTER DEGREE

5th NANOMED WORKSHOP

FROM BIOTECHNOLOGY TO
NANOBIOTECHNOLOGY
AND VACCINES

www.nanomed2022.it

PREV EDS

The 5th NANOMED Workshop follows the previous editions that were held in Paris (July 2018), in Patras (July 2019) and in Angers (July 2021)

SCOPE

- To provide a road map for a successful development of a **nanobiotechnology product**
- To serve as a podium for master thesis dissertation of 4th intake **NANOMED students**

Université Paris Cité, France
Academic coordinator:
Karine Andrieux

University of Patras, Greece
Academic coordinator:
Sophia Antimisiaris

University of Pavia, Italy
Academic coordinator:
Carla Caramella

University of Angers, France
Academic coordinator:
Emilie Roger

The workshop is organized by the Departments of Drug Sciences and Molecular Medicine of the University of Pavia.

The Workshop will take place in the historical town of Pavia, at Collegio Cairoli

The workshop will feature:

- Full Presentations from Invited Speakers
- Short oral presentations from young researchers (selected from submitted abstracts)
- Short presentations of the graduating EMJMD students (intake of 2020-21)
 - Poster session

According to the topic, presentations will be divided in the following mini sessions:

- Nanoparticle as carriers for oligonucleotides, RNAs, peptides and vaccines
 - Monoclonal antibodies
- Nanocarrier Design development and Characterization
- Miscellaneous in nanobiotechnology
